

Welcome to my Travel health update.

This course is open to all health professionals working providing a travel health service to the general public.

Whats different about this course? My promise is that after undertaking this course you will be able to accurately identify which vaccine preventable diseases are endemic to any country in the world by memory.

Katy Peters is a travel and immunisation specialist nurse and the Chair of the British Global travel health Association and the Founder and CEO of London vaccination clinic, overseeing 7 private nurse led travel clinics in central London, she is a member of the Faculty fo Travel Medicine at the Royal collage of Physicians and Surgeons and from where she was awarded the Cameron Lockie prize for excellence. Katy is a leader in the field of travel health, a previous aid worker for Medicines Sans Frontiers and a popular, engaging and motivational trainer.

The learning areas include:

- The consultation and risk assessment
- The RIVA Geography lesson!
- Whats new in travel health?
- Bugs and grubs - diarrhoea and mosquitos!
- Resources and further education.

Course in line with the RCN Travel health nursing, career and competence development.
